

Attn. HRD Dept.

Dear Mr. / Mrs.

I have hear that your company is looking for employees to hold some position. I am interested in applying application for the position.

My name is Charles Wesley Tambunan, I am 22 years old, I was graded of Informatics Engineering major – Bachelor Degree of Bina Insani University with GPA cumulative 3.50 out of 4.00. I consider myself that I have qualifications as you want. I am a quick learner that is willing to better apply the knowledge I have to work in companies that accept me and can develop that knowledge. It's really believed that I'm self-motivated and communicative well with staff and management to get the job done.

I understand in programming languages such as HTML, CSS, Javascript, Bootstrap, PHP and network addressing and configuring switch & routing. I can also operate computer applications such as MS Word, MS Excel and E-mail. More here, I include some of my details consisting of a curriculum vitae. Please, read me all the details and invited me to do an interview.

Finally, I extend my big gratitude to your understanding to see my all application details and hope that I can be one of your staffs. I look forward to waiting the confirmation from you.

Thank you for your attention and consideration.

Sincerely,

Charles Wesley Tambunan, S. Kom

- Able to work under pressure to meet deadlines, both individually and teams.
- Can do attitude; respect all team members, honest, resourceful, proactive, adaptable, creative, collaborated, high commitment, enthusiastic.

FORMAL EDUCATIONAL

- Bachelor degree from Bina Insani University, of Indonesia, Bekasi City majoring in Informatics Engineering Graduated in 2024
- Senior High School / SMK Bina Karya Mandiri Bekasi City 2020

COMPUTER AND SYSTEM LITERACY

- Microsoft Office: Microsoft Word, Microsoft Excel, Microsoft Power Point.
- Language: Indonesia, Inggris.
- Programming language: HTML, CSS, Javascript, Bootstrap, PHP.
- Network: Network addressing, Switch & routing configuration.

PROJECT

Security Monitoring Internet Of Things-Based Internet Of Things

- This project was part of a college task that I completed successfully as part of the Informatics Engineering study program. The goal of the project was to design and implement an Internet of Things (IoT)-based security locker system using Arduino Uno and Node MCU.

Website-Based RT Payment System

- As a student majoring in Informatics Engineering, I successfully completed an interesting and useful project of college tasks, namely the "Site Based RT Dues Payment System". This project aims to provide ease in the data collection process for RT contribution payments.
